Home-School Agreement

Our Vision:

Eyes opened. Minds unlocked

Our Mission:

At Kemsley Primary Academy we support individuality, celebrate difference and ensure that everyone has the freedom to lead their own learning journey. Through enjoyment and collaborative learning we aim to provide creative, diverse and inspirational opportunities and environments in which every member of our community can learn and feel valued.

We celebrate achievement, courage, effort and ability and strive to develop confidence and self-belief in all children and adults. We aim to create a cohesive network of support between pupils, staff and parents and work together within our community to achieve our shared goals.

It is our expectation that all our children will develop independent attitudes and skills that will enable them to create, question and challenge their own personal journey to achieving their goals without peer pressure or prejudice.

We want our children to enjoy every minute of being young and ensure that they are equipped for a future world. We don't know what life will look like when our children are adults, but we do know that key skills will remain just that, key! Together we hope that we can ensure children leave our school with their eyes opened and their minds unlocked to the world of possibilities that lie before them.

Our Learning Values

Our 4 agreed learning values underpin all of the work that we do. They shape our thinking, our teaching, the children's learning and the environment in which they whole school community works. We actively encourage children to apply their journey within the learning values to their everyday school life.
